

CONTRACT CR1210 –  
DESIGN,  
CONSTRUCTION,  
IMPROVEMENT,  
OPERATION AND  
MAINTENANCE OF THE  
EXISTING TUAS SOUTH  
STAGING GROUND

**Role:** Tender Design

Tuas Staging Ground to deliver excavated materials. The materials are weighed, discharged directly into barges.

At present, Tuas staging is operating below capacity and need solutions to enhance its operational efficiency, in order to achieve the capacity as mandated by the LTA.

Strader Consult has been appointed by Chye Joo to assist in the tender for LTA contract CR1210 package, primarily focused on review the existing traffic management scheme, review existing traffic facility for safe movement of trucks and conduct the traffic impact assessment for the staging operation. Proposed the improvement traffic management plan.
