

ROAD WORK AT LORONG GAMBIR

Client: KT Construction
Developer: Land Transport Authority (LTA) - Singapore

Role: Design and Consult

The Lorong Gambir is 2 way – 2 carriage lane serves as the primary road for local residents' travel.

Lorong Gambir is closed one lane for each construction stage.

Prepare the traffic diversion plan,
traffic signage plan for road closure.

Provide the Swept path analysis to assess safety movement of vehicles.

Provide the technical note to assess the impact of lane closure on the traffic flow and the mitigation measure.
